

OUR  
**FRENCH**  
DOORS

**EYG** home improvement  
glazing solutions  
...come on home

French doors are the perfect way to open up your home onto the garden so you can enjoy more of the great outdoors.

Suitable for properties of all ages and styles, installing external French doors will make your interior feel more spacious and appear much larger.

## **STRONG AND DURABLE**

Lightweight but strong, they will not contract or expand in extreme weather conditions

## **UNRESTRICTED GARDEN VIEWS**

Watch the birds or bring more natural light into your home with external French doors

## **WIDE CHOICE OF COLOURS**

Choose from more than 200 RAL finishes, with different options available for the interior and exterior

## **CHOICE OF MATERIALS**

Aluminium, uPVC, Timber

# SUSTAINABILITY

Our windows are A-rated as standard for energy performance.

Doors are designed to prevent draughts and minimise heat loss.

We use renewable energy systems to reduce cost of manufacturing.

Solar panels installed on factory roofs.

Re-use old wooden windows from customers' homes for heating.

Old UPVC windows removed from homes are recycled.
